(BY DIRECT WIRE TO THE TIMES.)
TOKYO (O.) Nov. 13.—[Exclusive
Dispatch.] Prosecutor David
sprung a sensation this afternoon
in Findlay by summoning before the
adjourned session of the September
grand jury the twelve members of the
petit jury which recently convicted
the Standard Oil Company of Ohio.

The jurors were being examined be-
hind closed doors, and the first inkling
of the proceedings did not leak out until
they had been subpoenaed and sum-
moned and had actually presented
themselves.

Following rumors of attempted bri-
bery and corruption, which were per-
sistent during the trial, trial there,
the present examination of the Standard
Oil jurors is deeply significant. An
agent for one of the biggest trusts
operating in Ohio may be implicated
in the grand jury disclosures.

Trust agents were familiar figures
around the courthouses and hotels dur-
ing the famous trial. Prosecutor David
stated this afternoon that all rumors in connection
with the attempted bribery will be
gone into thoroughly. It is expected
that the grand jury will make its re-
port tomorrow afternoon.

HIGH SCHOOL SOCIETIES ARE

Out.

(BY DIRECT WIRE TO THE TIMES.)
BOSTON (Mass.) Nov. 13.—[Exclusive
Dispatch.] A concerted move-
ment has been begun throughout the
New England schools to stamp out as-
cres societies and Greek-letter "frats"
in the high schools. The school boards
are taking a positive stand against
them on the ground that they injure
and destroy scholarship, debate
schools into cliques and caste and
create contempt for humanity, study
and duty.

This rather strong arraignment is con-
tained in resolutions made by the Mel-
rose, Mass., school board, which under-
took the work of wiping out the or-
ganizations after a thorough investi-
gation, but it is endorsed strongly by
other boards, some of whom have had
considerable trouble with pupils owing
to the existence of these societies.
Several cases of hazing and riotous
conduct have arisen through the oper-
ations of these societies.

SECRETARY SHAW

FINANCIAL SITUATION NEEDS NO

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Nov. 13.—[Exclusive

tary of the Treasury Department,
visited the subtreasury today. It
was understood in Wall street
that the purpose of his visit to the
financial district was to consider the
monetary situation with a view to de-
termining whether government aid
was necessary.

Secretary Shaw said he had discov-
ered no material change in the situa-
tion since Saturday, when he said he
would not take any measures of relief
for the money market in conditions
then prevailing. He said he still ad-
hered to that determination. His chief
business in New York, he said, had to
do with the customhouse.

When asked if he intended to make any
concession on the currency reform con-
ference which is in progress in Wash-
ington, the Secretary said:

"I am glad they are there, but I
hope they will be able to agree on
some plan. In fact, I am anxious that
something should be done."

Divorce Congress to

Adopts Clause Invalidating
Marriage to Demented
Man or Woman.

Contractual Age of Girls Is
Voted at Sweet Sixteen;

One-third of the Committee's
Proposed Uniform Bill
Is Adopted.

(BY THE ASSOCIATED PRESS—P.M.)
PHILADELPHIA, Nov. 13.—The
National Committee on Uniform
Divorce Laws, in session in this
city, today adopted about one-third
of the proposed uniform bill as drafted
by the committee appointed at the
meeting held in Washington six
months ago. The portions adopted in-
clude seven causes under which an-
nulment of marriage may be obtained
and six causes for absolute divorce.

The delegates from twenty-seven
States and the District of Columbia
and from the foreign missions and
several denominations who attended
the international conference on marriage
together with a Catholic prelate, Bishop
Shanley of North Dakota, attended
the sessions, which were presided over
by Gov. Pennington.

The important changes in the bill are
the striking out of all reference to
proceedings and practice, leaving
the question for the various legislative
bodies to settle. The committee decided
that so long as open hearings
are held and the laws provide for
direct service on the respondent and fix
a punishment for collusion, the mea-
sure need not conform to any fixed
rule.

Gov. Pennington took exception to
the clause which provides that if
either party, unknown to the other,
was insane at the time of marriage,
the marriage is annulled. The committee
held that the clause would give a
commissioner appointed by the court a
right to begin a suit in the name of an
insane party, even if the person
was not insane but did not want a divorce. He
argued that marriage was a personal
relation and a third person had no
right in the contract.

S. N. Taylor of St. Louis and C. L.
Munson of Williamsport, Pa., clashed
with the Governor on the subject.
Taylor said the third party is the
proper one to bring suit to annul the
protection of the insane. Property
rights, he also held, are involved.

Munson advocated the clause for the
protection of an insane person against
a designing man or woman. He cited
a case where the relatives and friends
were helpless to protect an imbecile
who had married a designing woman.

The clause was adopted.

There was also agreement to the
clause annulling the marriage of a
girl under the age of 16, and a youth
under 18. Ernest Merten of Wisconsin
held that a girl under 18 years was
incapable of making a proper marriage
contract, and Frank H. Kerr of Ohio
favored the law of his State, which
makes the marriage of a boy under
21 and a girl under 18 void. Miss
Rachel Shugert of Utah, the only woman
speaker held that it was young for the
girl to be all right. She said:

"We women ought to know."
The clause was adopted.

Though personally opposed to di-
vorces, Dr. Pennington, who was
elected in his section in behalf of his State, be-
cause no other delegate was present.

PANAMA, Nov. 13.—[Exclusive

since Panama was founded in 1519, will be
suppressed here if the law passed
through the Panama Constituent Assembly
is enforced. The Panama Constituent
Assembly, which is the new law, does
not give all games of chance, the lottery,
with a concession for twelve years, is not affected, but all keno, fan-
tan, roulette houses must be closed.

Gambling now being prohibited in the
canal zone by the new law, the em-
ployees are deprived of the only opportunity
offered except the lottery. The
United States worked for the suppression
of gambling, and the Panama govern-
ment is anxious to have the law effective
before President Roosevelt's ar-
rival.

Metcalf, who since his arrival had occasion to cross the bay about 5 or 6 o'clock in the evening, and became alarmed at what he feared was an improper crowding of the boats. The fact that automobiles with gasoline in their tanks were carried on the boats added to his apprehension for the safety of the service, and he determined a thorough investigation.

HELD FOR ARSON.

TWO SOLDIERS ACCUSED.

[BY THE ASSOCIATED PRESS—A.M.]

MONTEREY, Nov. 13.—Two privates from the Twentieth Regiment Hospital Corps, U.S.A., at the Presidio of Monterey have been arrested on a charge of arson. On Saturday night they were caught attempting to set fire to the hospital. Coal oil and paper had been placed with kindling wood against the side of the building when a sentinel observed one of the accused applying a match. Had the attempt been successful many lives might have been lost. The guard about the hospital and other buildings has been doubled with orders to shoot down the first man seen acting suspiciously.

WALL COLLAPSES.

TWO KNOWN INJURED.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Nov. 13.—With a moment's warning a brick wall on Market and Twelfth streets fell over at 2 o'clock this afternoon, burying several workmen under tons of debris. Seven known injured are:

JOHN CAPAS.

ANDREW ANGELETOCILLOO.

A hundred men are frantically at work removing bricks. It is thought several other workmen are buried under the wreckage. The two men taken out are believed to be fatally injured. They have been removed to a hospital.

At the time of the accident about twenty men were at work excavating a basement in the shadow of the wall. When the bricks started to fall the men started to run, but Capas and Angeletocillo were caught under the edge of the tumbling mass.

SCHOOL TEACHERS STRIKE.

[BY DIRECT WIRE TO THE TIMES.]

PORTLAND (Or.) Nov. 13.—[Exclusive Dispatch.] Three pretty young school teachers went on strike at White Salmon today when objection was made to their entertaining the young men admirers at the Bachelor Mails' establishment they had fixed up. The principal of White Salmon school, also a woman, is married and plainly told her subordinates that to receive male guests at their quarters was to be unconventional to be tolerated.

One of the teachers met with heavy reprimand and the others, also offenders along the same line, decided to strike out of sympathy. The big White Salmon school house that has been opened but two weeks and was the pride of the residents of the place is now without teachers.

The three young schoolmaids who are engaged for the winter, proved to be pretty and attractive, and the young men of the White Salmon country have been doing their best to make themselves agreeable to the young ladies. At Bachelor Mails' establishment, young men admirers were frequent callers.

The school directors took up the matter in hand today and requested the resignation of the principal also. Now the directors are seeking new teachers which at this time of year is proving a difficult matter.

METCALF'S OPINION.

PEOPLE FAVOR EXCLUSION.

[BY THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Nov. 13.—The Call will say tomorrow that Secretary Metcalf, before leaving for Washington today, confided to a few intimate friends that the sentiment of the people of San Francisco, if not of the whole State, was opposed to allow Japanese or Chinese children to mingle freely with Caucasian children in the public schools, and that it was likely that the statute providing that Asiatic children be taught in separate schools would be strengthened at the coming session of the Legislature.

The Secretary said further, according to the Call, that it was his opinion as a lawyer, that the treaty between the United States and Japan guaranteed to the children of Japan residence in this country the right to an education in the public schools without discrimination, and on an equal plane with the children of the most favored nations, and that he would so report to the President.

He was further of the opinion that the word "Mongolian" strictly interpreted meant natives of Mongolia; that the Japanese could not be brought under that designation, and that the Federal courts would declare the State law unconstitutional.

TRICKED BY DYSPEPSIA

The Doctor Couldn't Tell Where The Trouble Lay.

"For the past seven years I have been a victim of dyspepsia and chronic constipation and have consulted the most noted specialists to be found in this country. None, however, seemed to locate the difficulty and give relief. In addition to this medical treatment, I have resorted to the use of many remedies and have given them faithful trial, but all to no purpose.

Upon the recommendation of a close friend, I purchased a 50c package of Stuart's Dyspepsia Tablets and in less than five days noticed that I was receiving more benefit than from any remedy I had used before. I continued to use the tablets after each meal for one month and by that time my stomach was in a healthy condition, capable of digesting anything which my increasing appetite demanded.

I have not experienced any return of my former trouble, though three months have elapsed since taking your remedy."

We wish that you could see with your own eyes the countless other bona-fide signed letters from grateful men and women all over the land who had suffered years of agony with dyspepsia, tried every known remedy and consulted eminent specialists without result, until they gave Stuart's Dyspepsia Tablets a trial. Like the doctor above, they couldn't locate the seat of the trouble.

Dyspepsia is a disease which has long baffled physicians. So difficult is the location in the disease that cure seems next to miraculous. There is only one way to treat dyspepsia—to supply the elements which nature has ordained to perform this function and to cause them to enter the digestive organs, supplying the fluids which they lack. Stuart's Dyspepsia Tablets alone, fit these requirements, as is shown by the fact that 40,000 physicians in the United States and Canada unite in recommending them to their patients for stomach disorders.

We do not claim or expect Stuart's Dyspepsia Tablets to cure anything but disordered conditions of the stomach and other digestive organs, but this they never fail to do. They work upon the inner lining of the stomach and intestines, stimulate the gastric glands and aid in the secretion of juices necessary in digestion.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. One box will frequently effect a perfect cure. If in doubt and wish more adequate proof send us your name and address and we will gladly mail you a sample package free. F. A. Stuart, 102 S. Grand Ave., "March."

South Seas

No region is more interesting and full of romance than the South Sea Islands, and to make a voyage in the good ship Mariposa and travel to these Summer Isles of Eden is pleasure sailing the day long.

The famous surgeon, Dr. Nicholas Senn, says of this charming region: "No other island can compare in natural beauty with Tahiti, the gem of the South Pacific. It is the island where life is free of care—where the natives are fed, clothed and housed by nature, where man eats his daily bread without being forced to labor, sleeps and dreams away his life free from worry and enjoys the fruits of the Eternal Paradise before he dies."

The Mariposa sails from San Francisco November 22d. Reduced rates for round trip, \$125.00. Write for folder to F. M. Jenifer, 233 S. Spring St., Los Angeles.

THE CITY IN BRIEF

NEWS AND BUSINESS

Associated Charities.

The annual meeting of the Associated Charities is to be held at room No. 3, in the Courthouse today.

Two Thousand, Three Days.

A. M. Jones has sold to T. S. Coffin No. 125 West Pico street, and lot 5000, for \$31,000. The seller will have only three days before for \$25,000.

Fifty Thousand for Lot.

G. L. Pearall has sold to A. L. Scovell a lot on the east side of Fifth street, 100 feet east of Los Angeles street. The lot 60x95 feet, improved with a two-story frame building. The price is \$25,000, and the sale was through Mines & Parish.

Girls Returns.

Miss Edith Comazzo, who was reported to the police as missing, returned to her home Monday. The young girl was visiting with Miss Gwendolyn Smith, the house of Miss N. A. Mabel, No. 4650 Vermont avenue, in His Honor.

William Edward Murray, president of the Murray Marine Steady-Floating Steel Structures Company, is soon to make a trip across the water. Mr. Murray, who is offering his services, will give an informal dinner in his honor at the Angelus Hotel on Friday evening.

Crossed Wires the Cause?

Fire started in the rear of the Brown & Love Lithographing Company, at 3015 West Main street, last night. Many windows of the three-story apartment house above were frightened by the alarm. Practically no damage was done. It is supposed that the cause was the heat of the fire informed of Father's Death.

D. E. Luther, general secretary of the Young Men's Christian Association, yesterday received a telegram informing him of the death of his father at Worcester, Mass. From the coming of Worcester Luther to this city, his father lived with him at Atlanta, Ga., but since that time has resided with a daughter in Rochester.

Shriners' Cottage.

A cottage is being erected on the grounds of the Barlow Sanatorium by the Knights of Pythias of the Mystic Shrine, and the proceeds of the maintenance during the winter of two patients suffering from tuberculosis. The sanatorium is doing a splendid work in maintaining the sick through charitable contributions.

Another Auto Case.

Reyes Rodriguez of No. 411 North Main street was buried from a bicycle in the United States District Court. He gave his life in a bank robbery in the city. His assets total \$25,000, with assets totalling only \$32,000. Miguel D. Cohn, who had a plumbing store at No. 320 West Third street, yesterday sold it to a District Court. He admitted to bank robbery. He says he owes a total of \$25,000, and has assets amounting to only \$17,000, with which to pay them.

Historical Society.

The annual publication of the Historical Society of Southern California has just been issued. Among leading legal records is "The Los Angeles Fifty Years Ago" by H. D. Baldwin; "Pioneer Courts and Lawyers of Los Angeles" by W. R. Bacon, and "How California Escaped the Civil Division," by G. L. Scovell. The Society will wait for some liberal-minded pioneer citizen to furnish funds for its permanent quarters. At present, the society is scattered in an attic. The society would not even object to such a contribution from a "sugarfoot."

BREVITIES.

Parties desiring a small farm of choice land at a reasonable price, situated in a city, will find the following advantages of the excursion to San Luis Obispo and the suburban tract of 1800 acres on Tuesday, Nov. 20, 1906. Price \$1000 per acre, for particulars inquire of A. E. Romsey, room 70, Grant Block, 4th and Broadway, Los Angeles.

J. W. Frey has moved his stock of mantles, grates, tiles and andirons to his new home at 1020 Olive and Twelfth streets, where he can see the largest assortment of black and brass fireplace trimmings to be found in the United States. Lowest prices.

A fine dress, which just returned from New York, after spending months with leading dressmakers there, would like to go into partnership with reliable dressmaker or ladies' referee. Address, K. Box 155, Times Office.

On Thursday, November 15, at 8 a.m. St. Vincent's Church, an anniversary high mass will be celebrated, for the son of Miss Dora McNeil.

CITY AND COUNTRY.

WEDNESDAY MORNING, NOVEMBER 14, 1906.

PLAN FOR SPENDING NEARLY A MILLION.

What's to Be Done by the County
With All the Money if the Bonds
are Voted a Week From Tomorrow.
Room for Improvements.

REQUISITIONS for an aggregate of \$900,000 for articles declared to be needed will be placed before the voters of the county for approval on the 22nd inst.—a week from tomorrow.

Electors of the county will say whether or not bond issues shall be authorized for the following items:

For the construction of a new Hall of Records and addition to the Courthouse grounds—\$520,000.

For new buildings at the County Hospital—\$200,000.

For improvements to the County Jail—\$50,000.

For grounds and buildings for Juvenile Detention Home—\$50,000.

For improvements at the County Poor Farm—\$70,000.

It will be interesting to Times readers to know where and how this enormous sum of money is to be expended, and these facts are given here, in so far as has been determined by the Board of Supervisors.

As the average taxpayer is staggered at the idea of voting \$900,000 worth of bonds for purposes of which he has a very hazy understanding, the following detailed statement of the proposed expenditure of the money by the supervisors is given:

The erection of a new Hall of Records is made necessary by the overcrowded condition of the Courthouse.

The building of the Courthouse had in mind a small city; Los Angeles is now a large city.

Superintendent of schools, \$25.

Law library, Merchants' Trust Building, \$25.

This monthly rental of \$25 will be increased to \$50 by the end of the year.

Next year the rent will be more than doubled unless there are new buildings.

HALL OF RECORDS.

The new Hall of Records will be reared on ground to be purchased next door to the present Courthouse grounds. Compensation proceedings were begun in 1904, and the county government past all reckoning of the Courthouse builders. Valuable archives of the county are lying around on the floor and piled promiscuously on top of each other, to the great confusion of business.

The office of the County Assessor is so crowded that it is almost impossible to deal with the public. Any one who has tried to be waited on among these crushes that surround the little office of an office will be willing to vote nine millions in bonds it is necessary to improve it.

SUBTERFUGES FOR ROOM.

The idea is to tear down the Winans Block and the old County Jail (at present used as a juvenile detention home) and the present power-house, which stands at the Broadway entrance to the courthouse grounds.

Although the plans have not been definitely adopted, it is probable that a large steel and concrete building will be erected in the place of these to be torn down. It will cost about \$400,000.

LARGE CONCRETE BUILDING.

It will extend solidly through from New High street to Broadway, and will be over 100 feet wide. Into this will go the County Recorder, the Tax Collector, the Auditor, and possibly the law library, Coroner, and others now renting offices outside.

The plan most favored by the Supervisors at present is to excavate the ground on the new strip so as to make a large vaulted room in the building, probably five stories high on New High street and four stories on the Broadway side.

It will be entirely fireproof, with possibly an iron door vault for the most valuable papers, the San Francisco fire having proved the need of such a vault.

The building will be connected with the Courthouse with a "bridge of sighs."

DUE TODAY FROM AFAR.

The Times' Oriental party is due at Seattle today on the great steamer Dakota, and will doubtless arrive at that port between now and tomorrow evening.

The homecoming will mark the end of a long voyage to the Far East, which the travelers have enjoyed to the utmost, from all accounts. They should reach Los Angeles not later than Saturday of this week.

HER HAIRPIN A WONDER.

Used as a Fuse It Raises a Car
Blockade on West Temple
Street.

A woman's hairpin raised a blockade on the West Temple street line early yesterday morning, and sent a score of passengers home without the accustomed delay of an hour or more. It was a ten-for-a-dime wire that was used to reform the circuit after a fuse had blown out.

Just as a Temple car rounded the curve at Broadway, the fuse beneath the center blew out with a hiss and a blare and left the car helpless. After trying ineffectually to repair the break, motorman and conductor gave up in despair, and telephoned for the wrecker. A delay of an hour or more faced the passengers, all of whom were anxious to "get there."

A young man sitting on the front seat leaned over and whispered to a pretty girl at his side. She tumbled for a second in a mass of golden hair and handed the man a tiny hairpin.

"This will fix it," said he. The motorman was incredulous, but was finally persuaded to use the wire.

The hairpin worked like a charm, the circuit was formed, and power given to the motors. The car actually started. The conductor rushed to the nearest telephone, countermanded the order for the wrecker, and the hairpin-fused car proceeded toward the end of the line.

And it got there.

BIG LIFT FOR BETHLEHEM.

Beneficent Woman Places Valuable
Property in Bartlett's Hands for
Carrying Out the Work.

Dana W. Bartlett's faith in the benevolent impulses of the people of Los Angeles had another justification yesterday.

A year ago he took a lease on a piece of property at No. 618 New High street, running through to San Fernando street, and agreed to purchase it for the extension of the Bethlehem Institution work.

He has been waiting for somebody to produce the money to properly equip the property for its intended purpose, and yesterday his patience and confidence were rewarded.

A lady, whose name will not be divulged sent for him. She told him that she wanted to help the "Bethlehem" work, and thought it best to do it before she died. She thereupon turned over to him a valuable piece of property in the wholesale district, known as Nos. 201 and 224 West Fourth street, running from one end of frontage on Fourth street and running back 150 feet to a thirty-foot alley.

Mr. Bartlett is authorized to at once make a sale of the property, retaining one-half for the Bethlehem work, the other half to be paid to the present owner for another charity. The property is worth \$500 a front foot, and in addition to wanting a purchaser, Mr. Bartlett wants to find some benevolent agent who will make the transfer without commission, which will make Bethlehem's share in the property about \$11,000.

The other new Bethlehem work, at Railroad and East Main streets, is progressing finely. The church has been refitted and will be opened as a place for public meetings on Sunday night, November 25.

OUR NEXT MAYOR.

Now, an "LL.D." for Mayor in Los Angeles is certainly setting a pace for sister municipalities. But this is one of the titles held by Dr. Walter Lindley, Independent Republican nominee.

PLenty of PAY GRAVEL

John Singleton Returns from Alaska and Describes Richness of the Properties There.

John Singleton, widely known as one of the owners of the famous Yellow Gold mine and one of the oldest prospectors of California, has returned from a tour of inspection of extensive mining properties in the Tanana district, Alaska.

Singleton says that the properties of the Tanana-Alaska Mine Company, which he has inspected and in which he is interested, show an almost inexhaustible deposit of pay gravel. While at the properties a test clean-up of 1000 feet was made. The old-fashioned shoveling process was used, and at the end of ten hours, the test showed an average of \$3.60 a man, working ten hours.

The gravel is accompanied by John H. Hughes of the same company. Together they made the long island trip from the coast to the mining properties, a distance of almost 1200 miles, partly by boat, last July. After arriving at Alaska, they crossed the Yukon to Fort Givens, and then proceeded to the town of Fairbanks. The party proceeded along the Wood River and the Tanana River, and arrived at the mining properties thirty days.

The company owns hundreds of acres of property along Heske Creek, Moose Creek, Grubstake Creek, and along the Delta, Bitter and Willow Creek streams. The entire property seems to have been formerly the bed of a lake and the gravel deposits run the entire depth, they say.

Hughes says their company intends to spend almost \$1,000,000 during the coming year in the installation of sixteen hydraulic plants at the mines. They say that their holdings are the largest in the Tanana district.

In speaking of the property Singleton said: "It is the most wonderful deposit of gold-bearing gravel I have ever seen. If that property was located in California, it would be the advantages of water power that it now has. I think it would be worth \$50,000,000. In fact, it is almost impossible to compute what this great lake bed of gravel will turn out when developed."

Singleton said that the trip to Alaska performed wonders in the way of improving his health.

Stockings

Harry Wilson stole Miss Dean Van Acken's stockings when he was drunk. It cost him a \$1 fine in police court yesterday. The crime was committed at Ninth and Lincoln streets early this morning. The stockings and a night gown—which made up Wilson's plunder, were on the clothes line. Wilson was drunk. A patrolman found him with the loot in his pockets and took him to the Central Station. Deputy lacuney was the charge.

MARY AGNES PERRY

Mrs. Charles Perry, of Glendale, N. Y., writes: "I wish I could induce every mother who has a weak, sickly child to try that delicious cod liver oil preparation, Vinol. Our little daughter, had lost flesh, was thin, pale and sickly, and nothing seemed to do her any good. Having heard of Vinol we decided to try it, and the results were marvelous. It restored her appetite, and she is gaining in weight right along; the color has returned to her cheeks and she seems stronger than she has for years."

The money will be expended in purchasing some suitable site in the outskirts of the city, and the erection of cottages thereon. Little gardens will be provided for the children, who are now confined. The Old County Jail is not a fit place in which to keep a dog locked; it is damp and bleak. Jails employed there say that the health of the inmates is greatly affected by confinement in that dreary place.

The Old County Jail is not a fit place in which to keep a dog locked; it is damp and bleak. Jails employed there say that the health of the inmates is greatly affected by confinement in that dreary place.

There will be no graft in connection with this bond issue, surely. The bond issue will be the charge of the Juvenile Home Committee, composed of such women as Mrs. Nora McCarney, Mrs. W. J. Washburn, Mrs. J. F. Sartori, Miss Stoddart, assisted by Mrs. Charles Wilson.

The \$70,000 asked for at the County Farm is following another grand jury recommendation. The jury fired a bitter reast at the conditions under which some of the inmates are forced to live, dirt and vermin, laundry and insufficient heating facilities.

The supervisors propose to install a new heating plant; the institution has never had one. It is also proposed to add an infirmary, and to construct a new ward building. If there is money enough a new dining-room will be built, and probably a small electric piano installed. There are three gasoline pumping tanks in the basement in the framework, these may be disposed of and electric power substituted.

We have never sold anything in our store equal to Vinol to create strength for old people, weak, sickly women and children.

NOTE—While we are sole agents for Vinol in Los Angeles, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

Three Successful Girls.

Three most talented and successful
Los Angeles girls are the Misses Lucille,
Alma and Anna Roberts, (now
Mrs. Ward.) Miss Alma holds an im-
portant position in the public schools,
and finds the time available for her
studies almost nil. Miss Anna, however,
has reached a position as a pianist and teacher that
entitles her to much credit and appreciation
amongst musicians. She is a con-
scientious, industrious and really a
charming and kindly little lady, with
a host of friends, as have all the
sisters.

Miss Anna chose the field of
drama for her life work. She is a
handsome girl with golden hair and
brown eyes, and has a decided
ability for interpreting Shakespearean roles.
While she was young, she received
the Dobinson school where she received
her first training. Frederick Warde,
gave her her first engagement in Los
Angeles, playing Desdemona to his
Othello. She has since married
his son, Arthur Warde. It was pro-
phesied she would appear upon the
professional stage no longer, but now
comes word of her successful appear-
ance in the "Maidens of the South's
Dream" with a cast headed by Annie
Russell in New York. High praise is
meted to this clever Los Angeles girl
by the critics.

Garvania "Y" are Hostesses.

The beautiful home of Mr. and Mrs.
W. R. Bacon on North Avenue 66 was
the scene of a very social and interesting
evening entertainment, when the
members of the Young Woman's
Christian Temperance Union of Garvania
were hostesses at a reception
given for the Young Woman's
Christian Temperance Union of Pasadena
and Los Angeles. The early part of the
evening was devoted to a series of
interesting programs, which consisted of
reports made by the secretaries of the
different unions, together with several
readings and musical selections.
After the program, the address of welcome,
to which Miss Mary Mapes of Pasadena responded, was fol-
lowed by a few remarks from Mrs.
Catherine Wheat of Garvania, who
is not a sharp wine

not a white bed there was occupied,
only convalescents occupied chairs on

With few exceptions, the children are

WOULD SELL THIS RAILWAY.

Heir to Large Estate Seeks to Foreclose.

Bakersfield and Ventura Line May Go at Auction.

Frank Smith Holds Its Notes for Two Millions.

Foreclosure proceedings were commenced yesterday against the Bakersfield and Ventura Railway Company to secure payment of mortgages amounting to \$2,000,000 held by the late Eben Smith, who was president of the company.

The action brings to a climax the affairs of a railway venture which was the pet scheme of Maj. H. M. Russell, who says he will fight the foreclosure to the bitter end.

but another move to keep Gould and his Western Pacific Railroad out of Los Angeles. He denies the rumor that Senator Clark has bought the controlling interest in the Bakersfield and Ventura Railroad, but on the other hand, admits that it is his belief that Senator Clark is trying to gain control of the railroad from Los Angeles to San Francisco.

According to the trustee's notice of sale made public yesterday by the Title Guarantee and Trust Company, the property of the Bakersfield and Ventura Railroad Company was not put up for auction in the public sale shop of the railroad company in Oxnard, on December 7, at 1 o'clock in the afternoon.

WILL MAKE A FIGHT.

"I know nothing about the foreclosure until today," said Maj. Russell to a Times reporter yesterday afternoon.

"The suit is brought without just reason, and the intent does not seem to be held by the late Eben Smith, but on the other hand, it is his belief that Senator Clark is trying to gain control of the railroad for the purpose of building a railroad from Los Angeles to San Francisco."

GREEN PAINT IS HIS BANE.

Skwass Gets Whole Potful in the Neck.

Painter Man Uses Human Skin for Art Effects.

But Justice Austin Dismisses Peculiar Case.

Hitting a man in the back of the neck with a potful of paint is not a criminal offense, neither is it a case of disturbing the peace.

At least that is what Justice Austin in the Police Court decided yesterday when he discharged George A. Backiff, a painter, who had been arrested on a warrant sworn to by H. A. Hamsher of Long Beach, although the latter is not a police officer, but whose fine new suit of clothes was ruined by going of paint ricocheting from the back of the neck of Jim Skwass.

There were other witnesses at the trial, all of whom bore their evidence with them, in the shape of green spots.

The day Mr. Skwass appeared before Deputy Prosecutor Frederickson he took the complaint he was a sight. He looked like a grouch with black eyes, and evidently felt like it when he said that "I got it in the neck."

It all happened one day last week when Backiff was employed to paint a sign over the boot-blacking establishment of Jim Skwass at No. 340½ Main Street. Backiff objected strenuously to having the paint folded hanging over his place of business with the ropes dangling before his doorway.

TRIED TO SOOTHE HIM.

"This not do. You get out, quick, and wash Skwass to the paint-man."

"That's all right, you be easy. I'll be finished in a minute," was the soothing reply.

But the boot-blacker was impatient that the painter man got out right away, and he said things not altogether conducive to smooth brushing. When Skwass was through he came down from his scaffold and was met with a torrent of abuse from the boot-blacker.

"No savvy! I no savvy!" said Backiff, waving his hand like an arm.

This was too much for the boot-blacker. The indifference of this painter man in his position as a boot-blacker angered him, and he climbed up with Backiff and threw him down. But bystanders interfered, and the two were separated.

Just as Backiff was about to make a customer come along who wanted a nickel shave—but not a green one—Skwass proceeded to do business. But the latter's eyes on the paint job, and just as the former was gathering his coat, a note preparatory to going away Skwass grabbed the heavy top of a sawing-gum jar and threatened to put it in the victim's mouth.

PAINT HIS WEAPON.

The boot-blacker was a bad-tempered man, and he had just picked up. He did not hesitate. He swung it hard and with a true aim.

A green deluge enveloped the unfortunate boot-blacker; it flowed down his back, it mixed with his hair; it flew in all directions with an absolute impetuosity.

The half-blacked shoes of the Long Beach man were turned a vivid green, his fine new suit was ruined. By some miracle, as if they had been tattooed—they were red-headed with paint.

Even Painter Backiff got his, but he was hard to it, and took the green paint out of his eyes and nostrils, but the paint had not been called it ingratiate because they had rescued him from the boot-blacker in the first place. They felt sorry and understanding. They said as much in language which added a new hue to the surroundings.

By the time Skwass had squeezed the green paint out of his eyes and nostrils, he had put on his coat and put out the sticky paint down his back. Backiff had disappeared. It was as well.

With no evidences upon them, the victim made a bee line to the office of the City Prosecutor. Deputy Frederickson had not seen so much green paint as he had in his life. The man he played golf in the spring. The man he played golf in the green ink. Backiff was arrested.

But when the whole story was told before Justice Austin yesterday he before the court that the man was in a civil suit for damages, as Skwass was evidently the aggressor.

On the same day he got a chance to black the boots of Mr. Backiff, also his optics. Backiff says it's not so green.

McEvily of No. 51 East Twenty-second street. A patrolman captured Acosta shortly afterward and he was sent to the Receiving Hospital as an inmate.
